

Pure Whey Protein

- 1000 mg L-Glutamine ADDED per serving
- 100% All Natural / Low Carbs

BODY LEAN

All Natural

36

Special Processing & Blend: Low Carb Body Lean 36 Pure Whey Protein™ delivers the optimal source of whey protein by combining a highly refined Ultrafiltered, Agglomerated Whey Protein Concentrate and Cross Flow Microfiltration and Ion-Exchange processed whey. This highly specialized processing system ensures a high quality protein source in the form of short and long chain peptides, to increase protein retention - High Biological Value (HBV). Low Carb Body Lean 36 Pure Whey Protein™ is also remarkably high in Branched Chain Amino Acids (BCAAs), which are the most required amino acids needed to replenish muscle stores that are utilized during strenuous exercise.

*The Next Generation Protein: We have taken protein supplementing to the next level, without the worry of wasting ingested protein. The addition of NitroZyme™ helps breakdown long and short chain amino acids into smaller, more readily absorbable amino acids for maximum absorption. ** NitroZyme™ helps the body release more amino acids directly into the muscles to increase muscle size, strength and lean body mass.*

No Artificial Flavors or Sweeteners!

2.2lb Rich Vanilla

Net Weight 1.93 lbs (874.3g)

- 1000 mg L-Glutamine ADDED per serving
- 100% All Natural / Low Carbs
