Essential Blend Omega Advanced 750™ is a cutting edge, proprietary blend of Essential Fatty Acids (EFAs). Because our bodies do not manufacture EFAs on their own, **Essential Blend Omega Advanced 750™** provides these "necessary for life" fatty acids that have been shown to be deficient in the "standard American diet." EFAs have been shown to have a profound effect on the production of prostaglandins. EFAs support healthy blood circulation, normal blood pressure, may reduce inflammation and help balance bodily fluids. EFAs promote optimal cardiovascular, skin, nervous system and immune health. They are necessary for maintaining bone health, regulating your metabolism and to maintain reproductive capabilities. Omega-3's EPA (Eicosapentanoic Acid) and DHA (Docosahexanoic Acid) are the main component of the brain neurons and all cell membranes. Omega 6's CLA (Conjugated Linoleic Acid) aids in fat metabolism by promoting increases in lean muscle mass while helping to reduce body fat, enhancing immune health, providing antioxidant support and helping support normal cholesterol levels. Omega-6's GLA (Gamma Linoleic Acid) helps promote the production of "good" prostaglandins. While providing powerful antioxidant activity, GLA also promotes healthy blood glucose and blood pressure levels. Flax Seed Oil is rich in the Omega-3 ALA (Alpha-Linolenic Acid), which now makes **Essential Blend Omega Advanced 750™** one of the most complete Omegas on the market today! **Essential Blend Omega Advanced 750™** provides optimal support for immune and cardiovascular health, may help reduce body fat, increase muscle tissue recovery, and balance hormone (such as testosterone and insulin) production.

Supplement Facts

Serving Size 3 Softgels
Servings Per Container 40

	Amount per Serving	% Daily Value†
Calories	20	
Calories from Fat	20	
Total Fat	2g	3%
