

Liver Cleanse™

ADVANCED - P660

*With the Power of
Silymarin & Artichoke Extract*

A Must For People Taking Medication**

*Daily Liver Purification
& Support Formula***

Liver Cleanse Advanced P660™ is specifically formulated to support optimal function of the liver. Everyday stress, environmental toxins, foods and drinks (such as alcohol) we consume, and certain medications may all lead to greater toxicity for our liver. One of the liver's major functions is to detoxify our body of the toxins or free radicals that have the potential to damage our body. Our proprietary blend of clinically-proven nutrients, powerful antioxidants and Ayurvedic herbs helps detoxify and support the healthy functioning of the liver and may help repair damage to it. NAC (N-Acetyl-Cysteine) is a precursor to glutathione, an important antioxidant produced naturally in the body's cells. Our key ingredients Silymarin (Milk thistle) and Artichoke Extract have a long history for being used to treat and help the liver detoxify and repair itself by enhancing its own healing process.

Supplement Facts

Serving Size 2 Capsule
Servings per Container 30

	Amount Per Serving	% Daily Value
